Study Abroad is high impact and prepares students academically, personally and professionally for leadership in an increasingly global 21st century economy.
Students abroad face a new cultural context that includes different historical and cultural understandings of diversity and inclusion around issues like race/ethnicity, gender identity, sexual orientation, religion, disability, customs, beliefs, laws, facilities and social practices. While you may face challenges, remember that being in a new cultural context is a wonderful opportunity for change and growth and it will provide you with a new perspective on the structure of different societies.
