

# WHY YOU SHOULD SPEND J-TERM IN PRAGUE

December 27, 2020 to January 17, 2021

- Make the best use of your winter break. You can **earn three credits**, while exploring the beautiful city of Prague!
- It's a nice **alternative to summer study abroad** - we know many students have internships and jobs during that time.
- **Christmas markets!** You will have a chance to experience Prague's world-renowned markets first-hand, as they run into January.
- It's a great way to get a **head-start on the spring semester in Prague**, if you want to have extra time to settle in and work on your Czech.
- If you only want to stay for the J-Term period, that's great too, because **you won't have to miss a semester at your home university** and you can still have a study abroad experience.
- Winter activities - Czechs love spending time outdoors and the winter is no exception. You can **ice skate, hike and cross-country ski**...or give it a try if you never have before.
- Meet new people and make some **lasting friendships** - we work with students from universities across the U.S. and beyond.
- The city's **historic buildings, monuments, art galleries and museums** will all be part of your broader classroom.
